I have previously posted two articles on this topic: Preview metadata in list view on mouseover and Preview metadata in list view on mouseover – updated version.. Note that this one is for SharePoint 2010 only. This solution does the same as the previous solutions, but it is rewritten for SharePoint 2010 and is cleaner and simpler.

## **compareDocs 4 - docscorp.net**

This is an update to an article that I wrote back in July, which contained the first version of a PowerShell script to copy multiple documents from a file system into a SharePoint 2010 document library, automatically tagging them with column values (metadata) during upload. Back then, the script had very limited functionality, but I have now added some new features, converted the script to a ...
