We asked Microsoft to send us a list of the best new things you could do with the software that most people didn't know it could do.

Microsoft Office 365: 15 Amazingly Useful Hidden Features

Administrative shares are hidden network shares created by Windows NT family of operating systems that allow system administrators to have remote access to every disk volume on a network-connected system. These shares may not be permanently deleted but may be disabled. Administrative shares cannot be accessed by users without administrative privileges.
