Teradici is a privately held software company founded in 2004, with head offices in Metropolitan Vancouver, BC and Santa Clara, CA. Teradici initially developed a protocol for compressing and decompressing images and sound when remotely accessing blade servers, and implemented it in hardware. This technology was later expanded to thin clients/zero clients for general Virtual Desktop Infrastructure.

Last updated: November 15, 2018 When I first published this guide more than 7 years ago "internet TV in Canada was a primitive beast... Canadian television networks were just starting to put full episodes online and it was only for the purpose of their cable or satellite subscribers to be able to catch up on recent shows they missed.

The activPAL<sup>®</sup> has been used extensively by researchers worldwide to investigate the correlation between physical behaviours and chronic disease across all age groups and to date our products have featured in more than 500 peer-reviewed journal articles and conference presentations.

### **Bibliography - PAL Technologies Ltd**

The systems development life cycle (SDLC), also referred to as the application development life-cycle, is a term used in systems engineering, information systems and software engineering to describe a process for planning, creating, testing, and deploying an information system. The systems development lifecycle concept applies to a range of hardware and software configurations, as a system can ...
